

dumpPhysical

```
graph LR; A[dumpPhysical] --> B[ByteBuffer::readBlock]
```

A diagram showing a call from the function `dumpPhysical` to the method `ByteBuffer::readBlock`. The `dumpPhysical` node is a gray rectangle on the left, and the `ByteBuffer::readBlock` node is a white rectangle on the right. A blue arrow points from the right side of the `dumpPhysical` node to the left side of the `ByteBuffer::readBlock` node.

ByteBuffer::readBlock
